

## Earthmoving Machinery

Earthmoving machinery includes: ZE series excavators from 6 tons to 300 tons, ZD series bulldozers from 160 HP to 420 HP and the ZY series crawler loaders, exclusively produced in China.

Zoomlion's products are seen throughout the world of mining, energy, water, metallurgy construction, railway, highway and airport construction and many other type of construction.

Zoomlion's independently researched and developed ZE3000ELS excavator has become an important milestone in the history of Chinese hydraulic excavator development due to its intellectual property rights. Zoomlion has declared 15 patents, 23 utility model patents and 5 appearance patents in association with this model.
